

Mobile Service Fleet Solutions

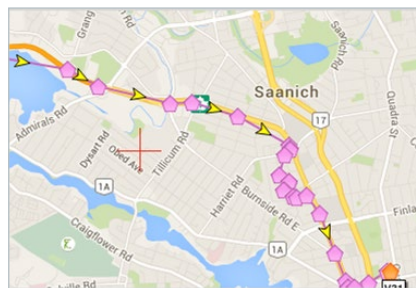

REAL-TIME GPS VEHICLE MONITORING SOLUTIONS

Nero Global Tracking telematics and GPS fleet management solutions help businesses increase visibility into their systems, streamline operations, and increase revenue. Improve fleet management operations by staying informed on the status of your fleet and your drivers at all times.

Reduce Costs

- Decrease vehicle downtime
- Reduce fuel use by tracking idle times
- Streamline equipment maintenance

Improve Productivity

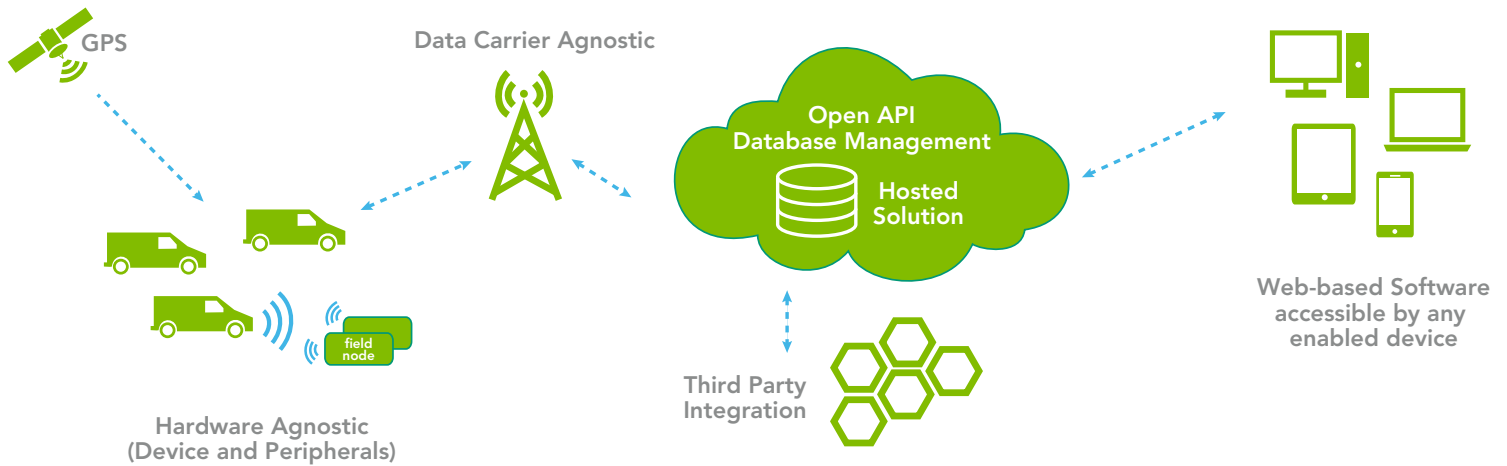

- Optimize fleet operations
- Improve customer service
- Maximize vehicle utilization

Increase Fleet Security and Safety

- Increase vehicle operator safety
- Minimize harsh driving and speeding
- Receive alerts for vehicle tampering

**SINCE 2003, NERO GLOBAL TRACKING HAS HELPED CUSTOMERS
MANAGE THEIR VEHICLES AND ASSETS MORE EFFICIENTLY.**

END TO END SOLUTION

Nero Global provides customers with a hosted telematics solution that is:

- » **Comprehensive.** Track vehicles, equipment, and drivers in one system.
- » **Flexible.** Use the Open API to integrate into 3rd party software.
- » **Scalable.** Increase productivity for fleets of tens or thousands.
- » **Easy to Use.** Improve productivity for a faster ROI.
- » **Futureproof.** Technology agnostic solution for evolution.

Complemented by a best-in-class support and services team:

- » **In-house development.** Solution built here, not a reseller.
- » **Training.** Unlimited and ongoing to rapidly deploy.
- » **Planning.** Work to your schedule to reduce disruption.
- » **Support.** Speak to a real person, not an IVR. Plus a 24 hour emergency support line.
