

TELEMATICS AND ASSET TRACKING SOLUTION

HELPING CUSTOMERS MANAGE THEIR VEHICLES, PEOPLE, AND ASSETS MORE EFFICIENTLY SINCE 2003

GPS FLEET MANAGEMENT SOLUTION

At Nero Global, we start all our relationships by getting to know our clients, their business, and their goals. We work with our clients to develop fleet management solutions that are uniquely aligned to meet their needs and objectives.

Reduce costs

- Decrease vehicle downtime
- Reduce fuel use by tracking idle times
- Streamline maintenance and ensure vehicles operate efficiently

Improve Productivity

- Maximize vehicle utilization
- Optimize fleet operations
- Automate reporting

Increase Security & Safety

- Increase vehicle operator safety
- Reduce risk of accidents by managing driver behavior
- Receive alerts for vehicle tampering

Improve the Customer Experience

- Instantly find and dispatch the closest vehicle
- Provide more accurate arrival times
- Settle disputes with time-on-site and proof of service reports

Fleet visibility - past and present

Harsh driving and speeding top offenders

Manage on the go

Regain Control of Your Fleet and Your Assets

Nero Global Tracking offers complete GPS fleet management and asset tracking solutions that helps business owners and operators increase visibility into their systems, streamline operations, and increase revenue. With increased awareness of fleet operations, customers can improve productivity, safety and security, and their customer experience to maximize their return on investment of their vehicles and equipment.

Nero Global is part of Vecima Networks Inc. (TSX:VCM). Vecima is a global leader focused on developing integrated hardware and scalable software solutions for broadband access, content delivery and telematics. We enable the world's leading innovators to advance, connect, entertain, and analyze. We build technologies that transform content delivery and storage, enable high-capacity broadband network access, and streamline data analytics.

End-to-End Solution

Nero's patented solution is:

- **Comprehensive.** Track vehicles, equipment, and drivers in one system.
- **Flexible.** Use the Open API to integrate into 3rd party software.
- **Scalable.** Increase productivity for fleets of tens or thousands of vehicles.
- **Easy to Use.** Improve productivity for a faster ROI.
- **Futureproof.** Technology agnostic solution and permanent evolution.

THE EVOLUTION OF ASSET TRACKING

Multiple jobs, multiple sites, equipment everywhere.

Nero Global asset tracking solution can help businesses increase their equipment ROI by having better visibility of their location and utilization. With this expanded platform automatically know when equipment has been dropped to a site, time-on-site for each piece of equipment, and whether it is still generating revenue for you.

Increase your profitability. How?

- Retrieve and redeploy equipment that would otherwise sit idle
- Avoid ghost assets in your inventory
- Make more effective decisions and increase your productivity
- Improve your customer service with faster response times

See your vehicles and assets all in one place.

PASSIVE TRACKING REDUCES HUMAN ERROR

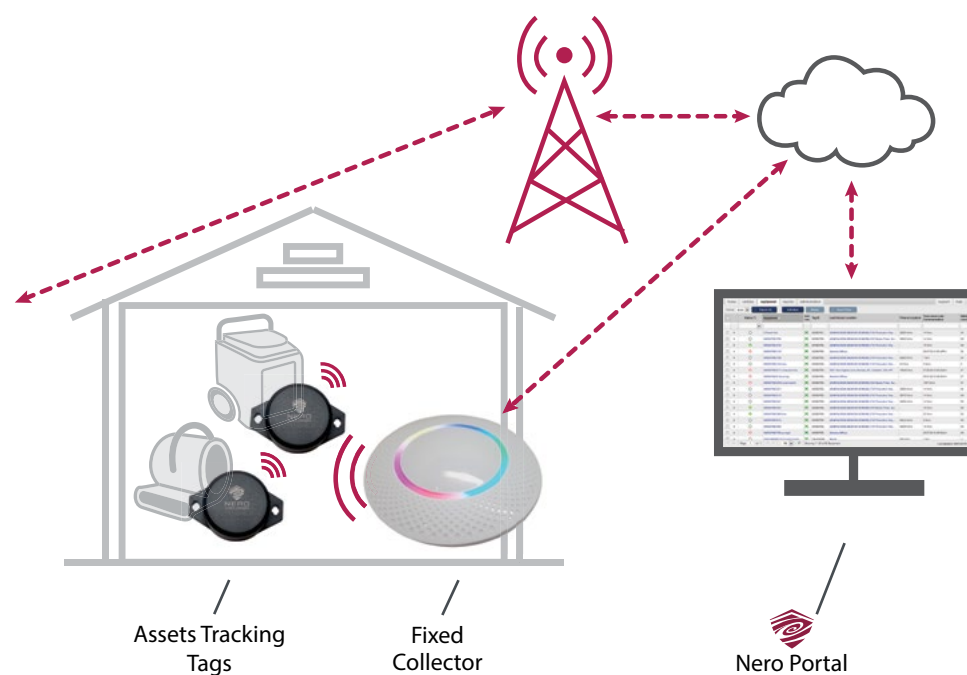

No scanning? No problem.

Collect inventory data without requiring your staff to scan each piece of equipment.

Turn the telematics GPS beacon in your vehicle into a reader, and get your high value asset to track your low value assets. As the vehicles move within range of each asset (such as a fan or dehumidifier), it will read and record the assets whereabouts.

- No manual requirement for staff to scan equipment
- No need to report back to head office for the second round of recording
- No human error

Get your assets working harder for you.

Key Benefits

Save time by scanning multiple tags at once

Significantly reduces inventory processing time

Increases productivity thanks to real-time reporting

Rapidly retrieve and redeploy assets

Improve your asset ROI

LONG-HAUL FLEET MANAGEMENT SOLUTIONS

Reduce paperwork. Improve efficiency.

Nero Global Tracking offers fleet management solutions for heavy duty vehicles and is designed for reliable, long term deployments in trucks, trailers, and other assets. Electronically complete and submit RODS and DVIRs, reducing amount of time spent on paperwork. Reduce fuel consumption through idle and speed management.

More than the Mandate. Surpassing the Standard.

Nero Global Tracking offers a complete fleet management solution that goes beyond the basics, and offers a rich feature set to increase visibility into your systems, streamline your operations, and increase your revenue.

TRUCKS

- Locate trucks in real-time
- Automate state by state mileage reports
- Track vehicle idle times
- Monitor unsafe driver behavior

TRAILERS

- Track tethered and untethered trailers
- Monitor cargo temperatures
- Alert for power cuts
- Rugged hardware for all weather

ELD and DVIR

- Comply with ELD law in US and Canada
- Automate RODS, reduce paperwork
- Electronically complete DVIR
- Monitor logs and inspections online

CUSTOMER SERVICE AT OUR CORE

A best-in-class support and services team complements our approach with:

- **In-house development.** Solution built in-house, not a reseller.
- **Training.** Unlimited and ongoing to rapidly deploy.
- **Planning.** Work to your schedule to reduce unwanted disruptions.
- **Support.** Speak to a real person, not an IVR. Plus a 24 hour emergency support line.

Nero team will help you to find the right tracking management solution that creates bottom line results for your business.

What our satisfied customers say about our solution...

Nero's passive equipment tracking system has helped us manage all our assets from one place, making it easy to find missing equipment or route technicians to respond to losses quicker. We have been very pleased with product and plan on continuing to utilize it.

Zack Niemann, General Manager
Paul Davis Restoration of East Charlotte, NC

The Nero trackers have been so great! It's helping us keeping track of when our technicians are checking in on jobs that are drying. There's no longer question on when the last person was at the job site. The customer service is also amazing! They are so willing to address your problems or concerns as fast as possible!

Alexis Davenport, Equipment Handler
Puro Clean of Lafayette, IN

Not only being able to locate where all your vehicles are, but if you got a loss you need to respond to, you don't need to call the individuals and say, "Hey, how much equipment do you have on your truck?" You'll be able to pull it up right away and dispatch accordingly!
