# Automate Your Asset Tracking

YOU KNOW YOUR STUFF
... BUT DO YOU KNOW WHERE IT IS?

Keep tabs on your movable assets through a simple beacon tagging system. Know which assets are on a job site and how long they've been there so you can have better visibility to retrieve and redeploy to your next job. Get your assets working harder for you.

This is you.
At home, in the office or on the go

Your warehouse

Your fleet

Your equipment in the jobsite

NO SCANNING? NO PROBLEM.

Drive to a job site and automatically know which assets are there and how long they've been there. Attach low energy tags to your assets that emit a low frequency signal that can be read by your Nero Global GPS tracking system. Vehicles will "read" the tags when in range, eliminating the need for staff to walk around and scan each piece of equipment. Reduce errors and omissions associated to manual processes, and keep your data up to date.
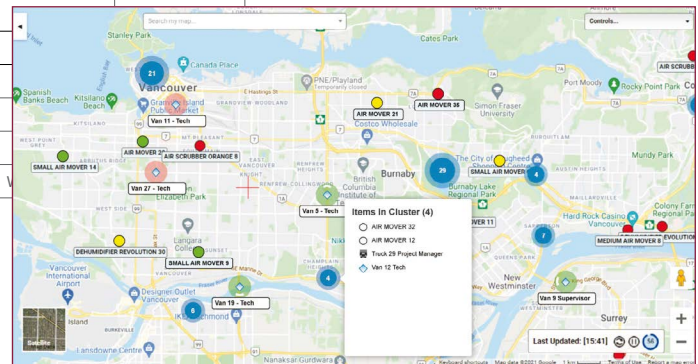

The Evolution of Asset Tracking

TRACKING MOVABLE ASSETS

Know your equipment location at a glance. See how long it's been there. Automatically inventory equipment without the need to manually scan items. Manage and schedule your equipment maintenance.

Status	Equipment	TagID	Last Known Location	Time at Location	Last Scanned by	Time Since Scan
◆	Dehumidifier	DEF203-001	123 Main Street	4 days	Truck 23681	<1 day
◆	Dehumidifier	DEF203-002	123 Main Street	4 days	Truck 23681	<1 day
◆	Dehumidifier	DEF203-003	678 Oak Street	9 days	Van 23611	<1 day
◆	Dehumidfier	DEF203-004	678 Oak Street	9 days		
◆	Dehumidifier	DEF203-005	678 Oak Street	9 days		
◆	CarpetExtractor	JDPE500-001	678 Oak Street	5 days		
◆	Carpet Extractor	JDPE500-002	678 Oak Street	5 days		
◆	Air Scrubber	PHHEPA-001	678 Oak Street	5 days		
◆	Air Scrubber	PHHEPA-002	Warehouse	12 days		

With the Nero Global platform, track your vehicles, assets, and people on one easy-to-use system. Integrate with industry-leading software solutions.

REDUCE EQUIPMENT LOST. AVOID HUMAN ERROR. SIMPLIFY OPERATIONS.
